INNOVATING GREEN SOLUTIONS

TRIPLE HELIX CLUSTER

- Public authorities = “problem owner”, purchasing power, demand
- Research institutions = cutting edge knowledge, innovation, and new ideas
- Private companies = ability to commercialize and scale new solutions

CLEAN:

- brings these players together on concrete projects and innovations platforms
- grants them access global markets through international cooperation
- acts as a point of entry for foreign companies

C40 CITY SOLUTIONS PLATFORM

Supporting climate action through public-private partnerships

PUBLIC-PRIVATE PARTNERSHIPS **IN ACTION**

“The C40 City Solutions Platform was successful in its main objective; to bring inspiring voices to plan the future of our city. The public-private discussion was a perfect and virtuous alliance between environment and economic development”.

Aspásia Camargo

Undersecretary for Government Management and
Planning, Mayors Office
Rio de Janeiro

C40
CITY SOLUTIONS
PLATFORM

The C40 City Solutions Platform is a not for profit programme which enables cities to engage with private sector partners through our unbiased, neutral platform to co-create innovative methodologies, technologies, and new business methods.

The CSP offers you a tailored process including:

Supported challenge development and scoping

Facilitated co-creating process with experts from the private sector and knowledge institutions

A implementation pathway plan to accelerate the deployment of climate solutions in your city

Branding of the successful city solutions and methodologies across the network of C40 Cities and beyond

THANK YOU!
